Cedar City Happenings

Ice cream at Cedar City Drug during the Round-Up.

F. W. Middleton, referred to elsewhere as the chairman of the committee on entertainment of visitors, has been acting in that capacity only temporarily. He was succeeded today in that capacity by Pres. L. A. Thorley of the Commercial Club.

We are informed that one or more of the dugways this side of the Jones & Bulloch coal mine have been rendered impassible for teams by the recent copious rains. Joseph Fife, who had been at work at his sawmill near the coal mine, came down Saturday, being obliged to leave his wagon or wagons. He returned to the mill on Monday.

Henry Pietsch, who has been working at the salt prospect up in Salt Canyon, two miles east of this city, has tunneled into the mountain about fifty feet, but has not yet reached the salt ledge for which he is digging. It will be a good find, not only for Mr. Pietsch and associates, but also for this entire locality if they succeed. We wish them good luck.

The first load of professors and lecturers for the Round-Up arrived at Cedar City last evening, by team from Lund, there being no automobile service on account of the recent storms. The party consisted of Dr. Widdow of U. A. C., Miss Gertrude Mc Cheyne, U. A. C., J. Edward Taylor, State Horticultural Inspector, Salt Lake City, and Mr. Kirkham of the Utah Farmer.

A nice showing of electrical labor saving devices will be on display in the kitchen of the Domestic Science department of the B. A. C. during the Round-up. Great pains have been taken to make this feature of the conference a success and all visiting and resident housewives are cordially invited to call and inspect the equipment which will doubtless be of great benefit to them in arranging their home work.

The West Wind.

It's a warm wind, the west wind, full of bird's cries;

I never hear the west wind but tears are in my eyes.

For it comes from the west lands' the old brown hills,

And April's in the west wind, and daffodils.

It's a fine land, the west land, for hearts as tired as mine;

Apple orchards blossom there, and the air's like wine.

There is cool, green grass there, where men may lie at rest,

And the thrushes are in song there, fitting from the nest.

Will ye not come home, brother? ye have been long away;

It's April, and blossom time, and white is the way;

And bright is the sun, brother, and warm is the rain—

Will ye not come home, brother, home to us again?

It's the white road westward is the road I must tread

To the green grass, the cool grass, and rest for heart and head,

To the violets and the warm hearts and the thrushes' song,

In the fine land, the west land, the land where I belong.

—John Masefield.

CEDAR CITY, UTAH

IF YOUR TIME IS WORTH ANYTHING

You cannot afford to run errands to all parts of town, where your business calls you, for one dollar per month. Sometimes you would not begrudge that amount for one personal conversation with some person living on the other side of town, with whom you have business, when you come in from your work all worn and tired out. Your wife, too, ought to be saved as many steps as possible, for goodness knows the women have a hard enough time of it at best. One Dollar a month is all it costs to have one of our telephones on your wall, with the privileges of the exchange, including Enoch, and with long distance connections with nearly all Utah towns and extending into other States. Drop in and let us tell you about it.

William C. and Walter C. Mitchell, Brothers of Paragonah were among Bp. Charles Adams and Wilford Day, the early arrivals yesterday for the of Parowan, and two of the Topham Round-Up.

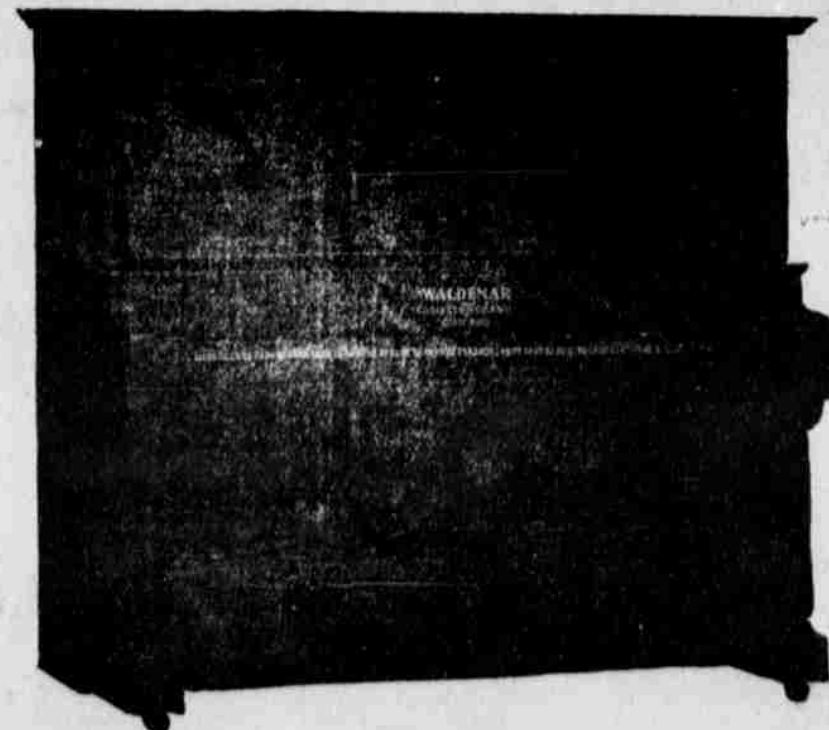

Adding a New Line

For years Pianos have not been carried in stock by local firms, so we decided to put in a line.

We have the room and think we can handle them nicely along with the furniture business.

So from now on the Furniture Store will be headquarters for PIANOS.

Our motto of "Good Goods at the Right Prices," will be maintained.

Gets Land in the Sevier Forest.

The supervisor of the Sevier National Forest reports that an area of 189.20 acres in the reserve has been listed to Daniel J. Allen of Teasdale, Utah.

This tract is located on Choke Cherry Creek some 80 miles from a railroad. Grover, Utah, the nearest settlement is about five miles distant.

The land lies on an open flat and is covered with sage brush. It is reported that the land will produce from 30 to 60 bushels of grain to the acre if irrigated.

John Platt of Kanarrville arrived yesterday afternoon for the Round-Up and rang up his presence at The Record office.
